1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which pupils with disabilities can participate in the curriculum
- Improve the physical environment of the school to enable pupils with disabilities to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to pupils with disabilities
- To reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils, and prospective pupils, with a disability.

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Our vision for our children, who all have Special Educational Needs, is to design and deliver our curriculum and extra-curricular activities around their needs. Inclusion is at the heart of our school community and curriculum framework. We aim to empower our pupils to recognise and harness their strengths, gifts and talents.

The school recognises its duties under the Equality Act 2010:

- Not to discriminate against pupils with disabilities in their admission and exclusions, and provision of education and associated services
- Not to treat pupils with disabilities less favourably
- To take reasonable steps to avoid putting pupils with disabilities at a substantial disadvantage (the 'reasonable adjustment' duty) in matters of admission and education
- To have and regularly to update an Accessibility Plan which meets the statutory requirements by being in writing and covering the three strands over time.

Our Equality objectives:

- To promote the awareness between students, staff and parents of the protected characteristics as set out in the Equality Act throughout all aspects of the curriculum and within targeted sessions of PSHE/RSE.
- To foster good relations between people who share a protected characteristic and those who do not.
- To robustly challenge inappropriate language and behaviour amongst any group within the school and community; taking any opportunity to educate against hate.
- To build/continue to develop an environment where everybody feels safe and safe to challenge others where their behaviour falls short of what is expected within The Lion Works School and the wider community.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

The school will consult a range of stakeholders in the development of this accessibility plan, including pupils, parents/carers/guardians, staff and members of the school board.

2. Legislation and Guidance

This document meets the requirements of schedule 10 of the Equality Act 2010 and the Department for Education (DfE) guidance for schools on the Equality Act 2010.

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the Special Educational Needs and Disability (SEND) Code of Practice, 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises. The guidance states that the adjustment made is relative to the size and resources of the school.

3. Monitoring of the Accessibility Policy and Action Plan

In formulating the policy and plan, the SLT may co-opt additional members whose expertise in any field would be of assistance.

The SLT's terms of reference are:

- To review the school's policies, procedures and facilities as they are likely to affect pupils and prospective pupils who are disabled;
- To make decisions with a view to improving the accessibility of its education in its many aspects, to pupils or prospective pupils with disabilities, by means of reasonable adjustments and to implement, evaluate, and continue to review the effectiveness of any measures taken;
- To continue to review the school's Equal Opportunities Policy;
- To continue to review the school's Accessibility Action Plan.

4. Key Actions Areas

The Accessibility Plan is written with 3 key sections in mind. These are:

SECTION A: Increase the extent to which pupils with disabilities (including those with special educational needs) can participate in the school's curriculum.

SECTION B: Improve the physical environment of the school in order to increase the extent to which pupils with disabilities are able to take advantage of education and benefits, facilities or services provided or offered by the school.

SECTION C: Improve the delivery to pupils with disabilities of information that is readily accessible to pupils who are not disabled.

5. Monitoring Arrangements

This document will be reviewed every year by the Headteacher, but may be reviewed and updated more frequently, if necessary.

At every review, the policy will be shared with and approved by the School Board.
